ABOUT ME

+4 years of professional experience with Software Engineering, **Fullstack developer** focused on **Front-end** using **TypeScript, React, and NextJS**, **developing web and mobile solutions**. I work on a project with thousands of daily accesses "[Meu Multii](#) | [Acesso Multii](#)" and also act on projects as a freelancer for companies [Latop](#) and [Neurogram](#). Open to relocation and require visa sponsorship.

LANGUAGES

- English - **C1 Level**
- Portuguese - **Native**

EXPERIENCES

Multiplan Empreendimentos S.A, RJ | Remotely - **Front-End Developer - (Full Stack)**

(February/2021 - Currently)

- Front-end functionality development and maintenance using technologies such as **React, SASS/CSS, NextJS**, and **TypeScript/JavaScript**.
- Developed and enhanced a design system, establishing a cohesive UI identity, accelerating frontend development, and enabling scalable, consistent features;
- **Optimization of code through reviews in Github** and the application of simplicity and good practices, focusing on maintainability and efficiency
- **Significant reduction of 25% in page loading times**, improving overall user experience and application responsiveness;
- Actively participated in user feedback sessions to better understand their pain points and usage of the system;
- Collaboration on the **back-end** with technologies **NodeJS, Express, GraphQL, MongoDB**.
- **Projects:**
 - Improved the shopping experience with the Parking Ticket Payment System via the [Multi](#) app
 - Registration and license plate recognition for parking lot access - [Acesso Multi](#) - **resulting in the registration of over 1M users;**
 - Creation of a user interface and emphasizing code readability and reliability.
 - Successfully integrated payment systems - **Sem Parar, ConectCar, Taggy, Veloe** - resulting in a **100% increase in user registrations and simplified strategic partnership processes**.
 - Trevo, a design system built using **Storybook**, for a cohesive UI identity;
- **Key Technologies:** React, Next.js, TypeScript, Apollo Client, Zustand, React Hook Form, GraphQL, MongoDB, Docker, Jenkins

Neurogram - **Front-End Developer as Freelancer**

(april/2024 - september/2024) - <https://neurogram.ai/>

- Developed dynamic landing pages for the product platform using **React** and **CSS**, utilizing **CI/CD** with **GitHub Actions** and **Firebase** for **deployment**, which facilitated scalability and maintenance of the project
- Also, developed a product/platform that stores and makes EEG exams available online, consuming advanced algorithms to assist in the diagnosis of neurological diseases, contributing to the medical field.
- **Key Technologies:** React, TypeScript, Context API, React Hook Form, Yup

Laptop - Front-End Developer as Freelancer

(July/2024 - January/2025)

- I develop and maintain a critical platform for **PepsiCo** using **NextJS** and **TypeScript**, with custom hooks for managing states and business logic. This platform enhances operational efficiency and security in freight transportation.
- **Technologies:** Axios, Zod, React Hook Form, Material UI, CSS.

Multiplan Empreendimentos S.A, RJ | Remotely - Developer/QA

(fevereiro/2020 - 2021)

- Increased Test Coverage: Implemented automated tests with Cypress, **increasing the application's test coverage by over 60%**. This initiative not only improved the product's quality but also reduced the time needed to identify and fix bugs.
- Participation in planning meetings with Product, UI/UX, and Development teams.
- **Technologies:** JavaScript, Testing Library

EDUCATION

- **Technician in Systems for the Internet** - *Centro Universitário União das Américas Descomplica* - Higher Education (July 2022 - December 2024)
- **Rocketseat - Technical Course** - [Explorer](#) - (September 2021 - January 2022)
- **Rocketseat - Specialization Course** | [React](#) (March 2022 - August 2022) | [Node](#) - (January 2024 - Present)
-

OTHER TECHNOLOGIES

- **Frontend:** React, Next.js, TypeScript, Redux, Zustand, React Router, React Hook Form, Zod, Tailwind, Material UI, CSS/SASS
- **Performance & Testing:** React Profiler, Jest, React Testing Library, Cypress, Playwright
- **Backend & API Integration:** Node.js, Express, Fastify, GraphQL, PostgreSQL, MongoDB, Prisma, Knex.js
- **Tooling & DevOps:** Git, GitHub Actions, Docker, CI/CD, Jenkins
- **Monitoring & Analytics:** Bugsnag, Mixpanel, AWS CloudWatch
